#### Certifications

##### FCC Certifications

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.

##### CE Certification

This equipment complies with the requirements relating to electromagnetic compatibility, EN 55024 and EN55022 class A for ITE, EN61000-3-2/-3 the essential protection requirement of Council Directive 89/336/EEC on the approximation of the laws of the Member States relating to electromagnetic compatibility.

#### Recycling Information

WEEE (Waste of Electrical and Electronic Equipment),  
Recycling of Electronic Products

##### United Kingdom

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process. Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your

#### Introduction

Thank you for purchasing the LINDY VGA Splitter Lite! With this highly reliable and quality product, you can enjoy the benefits of splitting a VGA signal to two monitors or projectors over distances of up to 50m.

##### Package Contents

- LINDY VGA Splitter Lite
- This manual
- 9V DC 200mA PSU

##### Features

- Splits a VGA signal to two displays (up to 50m)
- Supports high VGA resolution: 2048 x 1536
- VGA Bandwidth: 350Mhz
- Supports DDC, DDC2 & DDC2B monitor detection
- Supports VGA, XGA, SVGA, Multi-sync, CRT and TFT/LCD monitors
- Draws power from the monitor/VGA port
- LED status to indicate power and signal detection
- Magnetic base allows easy installation on metal surfaces
- Cascadeable up to five levels

#### Installation and Operation

1. Plug the VGA cable from your PC into the male VGA port on the rear of the VGA Splitter Lite
2. Plug the VGA cable from your monitors to the two VGA female ports on the rear of the VGA Splitter Lite
3. When all three cables are connected both the orange **Active** LED and the green **Power** LED should be lit

##### Please Note:

You must use VGA cables with all pins connected, the VGA splitter takes its power from the devices and will not operate with VGA cables without pin 9 connected.

national law when you want to dispose of any electrical or electronic products. More details can be obtained from your national WEEE recycling agency.

##### Germany

Die Europäische Union hat mit der WEEE Direktive umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden von der Bundesregierung im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt. Dieses Gesetz verbietet vom 24.März 2006 an das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

##### France

En 2006, l'union Européenne a introduit la nouvelle réglementation (DEEE) pour le recyclage de tout équipement électrique et électronique. Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation DEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

##### Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate. Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico. Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.
